**LOCATION AND DESCRIPTION**

Camp Perrot is situated on the south shore of Ile Perrot looking out over the St. Lawrence River with Beauharnois on the left and the Ottawa and St. Lawrence merging on the right. One of the sights, at the camp, is the ships travelling up and down the river, in front of the camp, and entering, the St. Lawrence waterways Soulanges canal to the right of the camp. The camp property is some forty-five acres in extent and has some 600 feet of shore line.

**SWIMMING**

There is a sandy shore where the campers swim. This sand extends into the water for about one hundred feet and becomes a hard clay bottom. The slope is very gradual and the swimming location is safe for beginners. On the other hand, skilled swimmers have plenty of opportunity and space for advanced swimming from the raft. The camp possesses four boats.

**PLAYING SPACE**

A considerable portion of the camp property is level ground and lends itself to all types of team games such as softball, football, etc. Extensive bush land is within walking distance of the camp, where campers can enjoy nature hikes, camping out, and various woodcraft games.

**A REGISTERED NURSE IN ATTENDANCE**

A registered nurse is in residence throughout the camp period. A daily health clinic is held to insure the safety and health of campers.

**DRINKING WATER**

A deep artesian well, tested and approved, provides an abundance of pure drinking water.

**HOUSING**

Campers sleep in tents erected over wooden floors built well off the ground. Each camper is supplied with a straw tick.

**7 A FARM EXPERIENCE**
